

## MPT support system

Support system for heavy-duty use in building technology, industrial use and plant construction.

- ▶ Save time and costs due to easy handling and installation at the construction site
- ▶ Reduced inventory requirements thanks to the small number of system components
- ▶ Quickly available from stock
- ▶ Standardised hot-dip galvanisation for a high level of protection against corrosion, for universal implementation outdoors as well as indoors
- ▶ Streamlined planning thanks to permanently defined system components
- ▶ More advantageous handling relative to steel structures; reduced weight thanks to hollow sections
- ▶ Ideal subconstruction for heavy pipe slides from MÜPRO
- ▶ Flexible combination with MPC and MPR system components

Wall mount with MPT console

Pipe support with additional fixation

Support with MPT channel supports and MPT consoles

MPT substructure

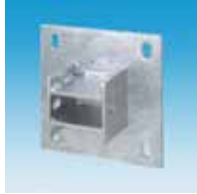

# MÜPRO

Support technology and vibration control systems

## MÜPRO products for heavy pipe support (extract)

MPT support section connector

MPT channel support bracket

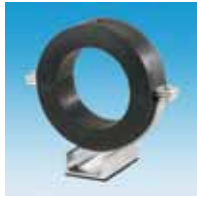

Cramping set type F1AH

Cramping set type F2AH

Pipe clamp acc. to DIN 3567

Pipe slide for cooling pipes

Pipe slide type DS-2

Pipe slide TPG-2 & cramping set F2 AH

Pipe slide TF-2

Pipe slide LP-2

ProfiCut MWK 2500

ProfiSprint
